Education

University of Waterloo

2025 – 2030

Bachelor of Computer Science and Finance - Double Major

- Functional Programs (Advanced), Interpreters (Advanced), Linear Algebra, Data Analytics and Financial Markets
- President's Scholarship of Distinction (**\$5000**), Undergraduate Achievement Award (**\$1500**)
- Statistics Minor

Languages Python, Java, C++, C#, C, Go, Kotlin, JavaScript, SQL, HTML, CSS, Bash

Work Experience

Roblox

San Mateo, CA

Software Engineer Intern

Jun 2026 – Aug 2026

- Developing a CI/CD pipeline for network config deployments, moving manual rack-switch pushes to automated deployments
- Designing canary-based rollouts with pre/post- checks and progressive rollout to deliver network changes to 10 Million+ concurrent users

Sunnybrook Research Institute

Toronto, ON

Software Research Intern | Python

Jul 2025 – Aug 2025

- Built an event tracing tool to simulate medical professionals' interactions with **Focused Ultrasound** 🧠 software
- Reduced software release test times by **91%** by creating an automated testing framework with **PyQt** and **Pydantic**
- Implemented a logging API using **Difflib** and **Loguru** to validate test results against baselines, identifying **5+** bugs

Data Science Club

Waterloo, ON

Software Developer & Hackathon Organizer | TypeScript, HTML/CSS, Supabase

Sep 2025 – Present

- Maintaining www.uwdatascience.ca - UWDSOC's primary website and associated apps for events and internal tooling
- Created an internal onboarding form and API to manage executive applications, profiles, and administration
- Managed food and logistics for 350+ hackathon attendees at CxC 🧠 - Canada's largest student-run AI hackathon

Projects

🧠 Pharmagotchi: AI Pharmacy Companion App | Android Studio, Figma, Kotlin, XML, OpenRouter

- Built an Android app using **OpenRouter LLMs** to provide AI-driven health insights and medication guidance to users
- Automated medication reminders, prescription tracking, and health report generation for healthcare providers

🧠 PeerAssist - Full-Stack Peer Reviewing | Java, MongoDB, Apache PDFBox, Maven

- Designed and developed a full-stack Java application for 5+ students to share, review and grade the works of others
- Integrated **MongoDB** for data storage and **Apache PDFBox** for PDF manipulation, enabling seamless document handling and retrieval across devices

🧠 Trust No Ghost - 3D Maze Exploration Game | Unity, C#, Itch.io

- Shipped Trust No Ghost 🧠 for **60+ users** at the UW Game Jam Fall 2025, placing in the **top 10** most rated games
- Utilized Unity and C# to develop expanding level designs, AI pathfinding algorithms, and dynamic moving mechanics
